Why Solution Systems?

Business solutions reinvented

- ✓ Experience. Solution Systems has been in the business of delivering business management software to meet the needs of manufacturers, distributors and service companies for over 40 years.
- ✓ Insight. We convert our industry know-how into valuable insights, so that you can maximize the benefits of technology in your business to gain a competitive edge.
- ✓ Talent. Our average tenure is fourteen years which is unheard of in our industry; with this kind of experience, our people are able to work faster and smarter and produce higher quality work for your business. A majority of our project managers have their CPA's and MBA's and have served as former controllers with years of business knowledge and experience.
- ✓ Delivery. We deliver on what we promise! We produce tangible value quickly, and we ensure that the product we deliver to you meets your exact needs so there are no surprises.

Software Implementation Services

- Project Management. An implementation team is assigned to every new client and is headed by a project manager. Our project managers have been with Solution Systems for many years implementing business solutions for clients of varying sizes in a wide range of manufacturing, distribution and service industries.
- Programmer Analysts. Our programmers are highly skilled and experienced; they can handle any challenge no matter the size or scope of your project needs.
- Implementation Specialists. They work closely with business analysts. They set up and train key users and end users in all areas of functionality.
- Support. Our support team is available to you to be a valuable resource for your business long after a project has been completed.

- ✓ Job Shop
- ✓ Manufacturing
- ✓ Medical Device Manufacturing & Supply
- ✓ Metal Fabrication
- ✓ Plumbing Wholesale
- ✓ Rubber and Plastics
- ✓ Service & Repair

What Can A Business Solution From Microsoft Do For You?

Simplify your business. Integrate and centrally store financial, manufacturing, supply chain, sales and marketing, project management, and field services information.

Give you an end-to-end solution. Connect your business, automate and secure your supply chain, sell smarter and improve customer service, keep projects on time and under budget, and optimize your operations with either Microsoft Dynamics 365 Business Central or Dynamics NAV and Dynamics 365 Sales, Office 365, and Power BI. Host these products in the cloud as multi-tenant solutions, as a single tenant Azure cloud solution, or on-premise.

Make better decisions. Simplified access to job specific information and tasks helps employees view work priorities and access the information they need to make informed, confident decisions; a wide range of analytical and reporting can help you gain insight into financial and sales performance.

What Our Clients Have To Say About Us

"I know this won't come as a shock to you, but I wanted to let you know what a fantastic job everyone at SSI did to make the cutover to Business Central go as smoothly as possible. We never missed a beat and for the majority of our users, this upgrade was a nonevent. I know that this topic was brought up at our quarterly Board of Directors meeting today and I was told they were all highly impressed from start to finish with how everything went."

Jim Gio, Director Management Information Systems, Triangle Package Machinery Company

"I wanted to send a quick note letting you know what an awesome job Dori and Steven are doing for us. They are experts on Microsoft Dynamics 365 Business Central and Microsoft Power BI and have been a pleasure to work with. There were numerous tasks that our current partner couldn't do, didn't know an answer for, or lied to us about and Dori and Steven have been more than willing to get "in the trenches" so to speak and help us get things under control."

Mike Behymer, Accountant, The TDJ Group
